

BIKE TIP!

Downtown Portland is covered in rails for the MAX and Streetcar. Never try to cross or change lanes parallel to these rails! The wheels of your bike can get stuck and your own speed and weight will send you flying, likely to the nearest emergency room. Cross these rails at a perpendicular and save yourself some literal pain!

MAX TIP!

The MAX is pretty bike-friendly! Racks are located at the end of each car. Just hang up your bike by the front tire and you're good to go. Bikes are rarely the targets of theft on the MAX, but it might be a good idea to keep an eye on it anyway.

CAMPUS GARAGES ARE LOCATED AT:
