

PSU: THE GAME

Welcome to *PSU: The Game*,
where there are no winners
but there are losers

RULES:

- Place the coins on the board at intervals of 6-8 spaces with the arrows pointing at the chosen spaces.
- Roll the die. Move that many spaces forward on the map.
- Draw a card upon entering each new year or when the space you land on indicates to draw a card.
- If two people land on the same space, they must each roll the die. Whoever rolls the highest number can take one of the other players' cards. If there is a draw, no cards change hands.
- A player may repeat their senior year one time by shuffling one of his/her cards back into the deck. The player does not get a new card upon restarting the year.
- The game is over when each player has reached the end of his senior year. Multiply and then tally all points: Academics x1, Social x1.5 and Career x2. Highest point value overall wins!
